Automatically adjust distance

Zealot gives you the ability to customize the lift distance. This has a number of practical applications, most importantly it allows you to fine-tune the mouse to your preferred mousepad or mousing surface.

UPE Teflon Glide

Gaming grade teflon of mouse button ensure maximum glide. TeamScorpion recommend changing glides regularly as they will eventually worn down.

Onboard Memory

Gamer can program up to five "ready-to-play" which is capable of "Plug & Plug" in any other computer systems.

User-Friendly Driver Interface

Zealot user-friendly driver interface allows you to adjust macros and set keybindings, tweak cursor sensitivity, create custom profiles for each game, and assign commands to your programmable buttons and modes, plus selecting the most stunning lighting system combination. All configurations to your specific needs can be stored in the onboard memory.

Personalised Interface

Unique driver interface gives gamers a whole new experience while configuring their specific setting and profile.

3 Lighting Schemes

Team Scorpion Zealot has three sets of lighting system, full-color "breathing" light, 6-color "pulse-fluid" light and red "heart-beating" light. The lighting system provides feedback in operation, it also stimulate your mind during exciting games.

Professional player settings file

Team Scorpion Zealot mouse can be set and stored in 5 profiles, this feature allows you to carry out the different game or different game to complete the task and the need to change the game when the sensitivity and accuracy, to switch on the computer.
