FUSION CHALLENGER A4

FCA4

LEAN & MEAN MACHINES Fusion Challenger A4 allows you to do more in less time with energy-efficient desktops. With AMD's APU, a multicore CPU and discrete-level GPU on a single power-efficient chip, you get the visual performance you need for the best choice for digital entertainment and gaming. With even more compute performance, graphics are crisp, bright and smooth, and content is easy to share. This machines has an extra boost of performance with a discrete HD6450, enabling dual graphics performance.
